Do Now Math Worksheet Grade 6 Intermediate Version 10

1. Mark scored three times as many goals as Drew this season. Drew made twice as many goals as Steve this season. If Drew made 6 goals this season, how many goals did Mark and Steve make?

2. Jordan earns $\frac{1}{4}$ of Julian's salary. If Julian received a monthly salary of \$7,000, how much does Jordan earn each week?

3. The odds of winning the lottery is 1 in 24,900,000. If you buy 20 lottery tickets, what are your odds of winning that jackpot?
