Do Now Math Worksheet Grade 8 Advanced Version 1

1. Solve for x.

A)  $8x - 50.6 = 29.4$

B)  $5x + 95.97 = 145.97$

C)  $3x - 10.24 + 3x = 2$

2. You put \$500 into an account that is receiving 5% annual interest. How much will it be worth in 4 years?
